I know why the caged bird sings

by Maya Angelou

A free bird leaps on the back
Of the wind and floats downstream
Till the current ends and dips his wing
In the orange suns rays
And dares to claim the sky.

But a bird that stabs down his narrow cage
Can seldom see through his bars of rage
His wings are clipped and his feet are tied
So he spares his threat to sing.

BANANA BREAD RECIPE

Heat the oven to 350°F and prep the pan. Arrange a rack in the bottom third of the oven and heat to 350°F. Line an 8x5-inch loaf pan with parchment paper, letting the excess hang over the long sides to form a sling. Spray the inside with cooking spray. If using nuts, toast them in the oven for 10 minutes as the oven is pre-heating.

Melt the butter. Melt the butter in the microwave or over low heat on the stovetop. → Alternatively, for a more cake-like banana bread, soften the butter (but do not melt) and cream it with the sugar in a stand mixer in the next step.
